Leon Palmer

FOUNDERS STORY

After spending over ten years in the new build industry both architecturally and on-site as a project manager, I developed a deep passion for glazing and a keen eye on how natural light can transform a space. I have been involved in building houses since leaving school.

I was educated at degree level in Bristol before moving to Devon, and setting up Prime Living Design and Build Ltd along with my wife Jessica.

I wanted to create homes that not only embrace open plan modern living but also showcase the beauty, and feel of elegance of glass in open spaces. Over the years I've built a reputation for delivering high-quality, innovative designs that truly enhance the way people live.

I set this company apart, and built the brand with designs such as Prime Livings signature bi-fold doors, flat roofing glass and roof lantern extension incorporating open plan living designer kitchens.

Today, our teams specialise in transforming spaces into beautiful, functional and open environments for families.

I pride myself at Prime Living on our attention to detail, and commitment to client satisfaction. Each project is a testament to my dedication to creating living spaces that inspire and improve the quality of life for my clients.

As I continue to grow, my mission remains the same; to bring the dream of better living to more homes across Devon.

Warm Regards

Leon Palmer

PRIME VISION

I wanted to create homes that not only embrace open plan modern living but also showcase the beauty and feel of elegance of glass in open spaces. Over the years I've built a reputation for delivering high-quality, innovative designs that truly enhance the way people live.

What our Clients Say

About Prime Living!

Design & Build

“Would Highly Recommend the Team”

Leon did a loft conversion for us while we were away for a few months. He and his team did a great job. Really good communication, always letting us know what was going on, and great attention to detail. Leon is a nice guy too. Super helpful and got everything done in time for our return home. Would definitely recommend.

E Emma Draper 

“Amazing Advise & Support”

The planning, work ethic, advice and support from Leon and his team at Prime Living Design & Build has been first rate. Being new to the area, it has been such a relief to be able to find a company that we have been able to trust and rely on.

J Janet Lever 

“Professional & Reliable Teams”

Prime Living & Design (Leon) did an amazing job - Professional, reliable, and top-quality work from start to finish. Every phase of the project was handled with care and precision. It's rare to find a construction company that combines craftsmanship with such reliability and integrity.

Highly recommend them for any project!

H Harry Thompson 

What our Clients Say About Prime Living!

“Made a Huge Difference to our Home & Me”

Prime Living Design & Build completed a project recently for me . They worked with me on the design and built a modern looking garden room with bi-fold doors, glazed elevation. It's made a huge help for me and my family. There was little disruption as possible to our garden. And he and his team were always very polite and tidy. Every end of the day they swept up and made the area as tidy as possible can be on a build.

Leon and his team were reliable , tidy, and delivered exactly what was promised on time and within the agreed price with no complications. He even brought in suggestions and ideas as it was built to change some of the space interior to better suit our needs. I would recommend them to any friends or family. More than happy to leave them a 5★review. Thanks again to them.

Extension Range

Double Project Schedule!

Extension & Loft Conversion

“Precise, Tidy & Efficient Throughout”

We recently had a home extension and loft conversion completed in Exeter by Prime Living Design, and we couldn't be happier with the results. From start to finish, the team was professional, polite, and consistently maintained a high standard of workmanship. The bricklayers in particular did an exceptional job — precise, tidy, and efficient.

If you're looking for a reliable, high-quality building company in Exeter for home extensions, loft conversions, or property renovations, Prime Living Design is the one to call. They delivered on time, were easy to communicate with, and left the site clean every day. Truly an excellent company. Highly recommended for anyone searching for skilled and tidy trades people in Devon!

“★★★★★ 5 Stars – Outstanding from Start to Finish”

We recently had a house extension completed by Prime Living Design & Build, and we couldn't be more thrilled with the result. We are returning customers, having first worked with Leon, Director of Prime Living Design & Build, five years ago when he built our dormer roof extension – which was also finished to an exceptional standard and has stood the test of time perfectly. It was an easy decision to choose Prime Living Design & Build again, and once more they have exceeded our expectations.

A special thank you goes to Leon, whose craftsmanship, dedication, and pride in his work were evident every single day. Leon was always punctual, courteous, and approachable, and he took the time to explain each stage of the build so we always felt informed and reassured. His problem-solving skills and eye for detail were second to none, and the quality of his work has, once again, been outstanding.

What made this build even more remarkable was the speed and efficiency with which it was completed – in record time – all while working around the demands of a very busy family home. The team were considerate, tidy, and flexible, ensuring disruption was kept to an absolute minimum without ever compromising on quality.

Communication from the whole team was excellent throughout – we were kept fully informed at every stage, and any questions we had were answered quickly and clearly. The finished result is stunning, with every detail perfected.

What really sets Prime Living Design & Build apart is their ability to combine style with practicality. They offered clever design suggestions that have truly transformed our home, making the new space not only beautiful but also incredibly functional.

We've had so many compliments from friends and family, and we honestly can't imagine our home without this extension now. If you're looking for a trustworthy, skilled, and customer-focused building company, we can't recommend Prime Living Design & Build – and Leon – highly enough.

Doors that glide effortlessly...

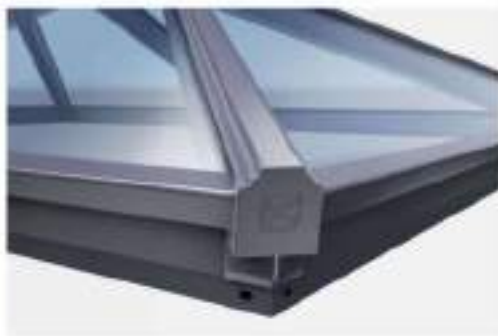

An intelligently engineered short wheelbase carriage assembly with four wheels, manufactured from a high-grade acetal, guides the doors along the track seamlessly, enabling them to open and close with ease. It's quality you can see, feel and admire.

Designed to Purpose

The Korniche Roof Lantern has a simple design which means it is capable of being fitted in minutes and glazed in seconds. It is the fastest and easiest kit to install on the market.

Protected Inside & Out

Korniche Roof Lanterns are fully thermally broken. Outside aluminium elements are connected to the internal ones through thermal breaks, vastly reducing heat transfer.

Beautiful Every Angle

Where the spas end, they are fitted with an aluminium die-cast end cap, sculpted to fit perfectly with no visible fixings to maintain the beautiful aesthetics in every detail.
